**More About *The Draughtsman's Contract*: 25th Anniversary!** This extraordinary, beautiful, witty, puzzling, visually stunning and disturbing film heralded the arrival of film genius Peter Greenaway, and movies have never been the same since. Set as a restoration mystery in the England of the 1690's, the film is a tour-de-force study of manipulation and murder, of sex, power and the abuse of sex and power that is structured on many layers, full of intrigue and double meanings that challenges our understanding of the meaning of what we (and the characters) see.
