

Program Mission and Goals

MISSION STATEMENT

The mission of the radiation therapy program is to educate and produce highly qualified radiation therapists through an objective based didactic education and competency based clinical education. Student growth and professional development will be instilled through the community college system and atmosphere in conjunction with the Institute's Mission Statement.

Program Goals

SLO 1

Students/Graduates will be clinically competent

Students will select appropriate treatment setup factors.

Students will practice radiation protection.

Students will be exposed to a variety of alternate treatment setups.

SLO 2

Students/Graduates will communicate effectively

Students will articulate the treatment setup procedure with the patient.

Students will practice effective oral communication with the Radiation Therapist community.

SLO 3

Students/Graduates will use critical thinking

Students will create a reproducible patient position in simulation.

Students will demonstrate competence when setting up an IMRT treatment.

SLO 4

Students will demonstrate professionalism

Students will examine the importance of continued professional development.

Students will demonstrate ethics/professional behavior when interacting with both patients and the healthcare team.
