Dental Patients Needed!

NHTI Dental Hygiene students are looking for children and adolescents ages six to twelve to be patients in the Dental Clinic. They are also looking for people of all ages who haven't been to the dentist in five to ten years. Dental Hygiene graduates must meet certain requirements for them to get their degree and with the pandemic happening they have had a harder time getting folks to come in. If you are interested or know anyone who would be interested, please reach out to the Dental Clinic. Your support would be greatly appreciated.

The Dental Clinic is committed to providing you with comprehensive patient-centered care while providing our students with an excellent learning experience. Our students have been educated and evaluated to laboratory and clinical competency prior to treating patients in our clinic. Students are closely supervised and evaluated as patient assessment and treatment are provided. If you are interested or know someone who is please contact the office at **(603) 230-4023** or by email at **NHTIDentalClinic@ccsnh.edu**
