This program is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval without reporting requirements." The commission is a specialized accrediting body recognized by the United States Department of Education. The commission on Dental Accreditation can be contacted at 312-440-4653 or at 211 East Chicago Ave., Chicago, IL 60611.

The dental hygienist is a key member of the professional dental team, providing educational and clinical services. In NHTI's Dental Hygiene program – the only of its kind in N.H. – you'll learn to analyze health information, educate, and provide clinical services to improve oral and overall health. Our NHTI graduates are effective dental hygienists who enjoy rewarding, successful careers serving a variety of patients and populations in N.H. and beyond.

## Career Opportunities

As a dental hygienist, you'll learn to provide preventive and therapeutic dental services, including dental hygiene assessment and care planning. Services include oral, dental, and periodontal examination, scaling and debridement, pain management, radiography, dental sealants, in-office whitening, and oral hygiene instruction. Dental hygienists are professionals, licensed by the state in which they practice, who complete extensive educational and clinical preparation in oral disease prevention.

## Employment Outlook

The salary of a dental hygienist depends on the responsibilities associated with the specific position, the practice setting, and the geographic location of employment. Full- or part-time employment and benefits are factors. Dental hygienists earn salaries equal to healthcare personnel with similar training and experience such as nurses.

## Preparing You for Success

NHTI encourages our dental hygiene graduates to pursue their bachelor's degree. Our graduates successfully transfer to colleges and universities around the country. Because of the extensive knowledge and skills of dental hygienists, professional organizations are discussing the bachelor's degree as the entry-level degree for dental hygiene.

## DENTAL HYGIENE ASSOCIATE OF SCIENCE CURRICULUM

FIRST YEAR	Course	Title	CL	LAB	CR	
		<b>Fall Semester</b>
