603-230-4011 | Hours: 8 a.m.-4 p.m.

NHTIadmissions@ccsnh.edu

Welcome to NHTI's Paramedic Emergency Medicine, the only degree program of its kind in N.H. We offer small class sizes, current emergency equipment, and even a full-sized ambulance simulator. The program combines medical courses, general education requirements, and specialty certifications. We specialize in the quality of our faculty, classes, and clinicals. All faculty members have a college-degree and currently work in the field of medicine. Lecture and labs create a deep understanding of the topics. Hospital clinics are overseen by on-site faculty to ensure you have a positive experience and meet program requirements.

Clinical Affiliation Options

Clinical rotations include on-site hospital supervisors and assigned field clinic preceptors in high-volume EMS services. Graduates of Paramedic Emergency Medicine program have a 100% pass-rate for NREMT written and practical exams and 100% job placement. As a student, you'll have your hospital/clinic experience at Concord Hospital, Southern New Hampshire Medical Center, and Dartmouth-Hitchcock Medical Center. Field clinic opportunities are found at high-volume sites in N.H and Mass.

Career Opportunities

Paramedics are highly sought after in a wide range of settings. If you're interested in a pre-hospital setting (the typical paramedic position), you can find work with a fire department, private ambulance service, or hospital. If you'd prefer to work in an indoor medical setting, jobs are available in emergency rooms or urgent care centers. If your interest is entertainment, you can find work on movie sets and at sporting venues, amusement parks, and concerts. There are paramedic jobs available on cruise ships and at resorts and international settings.

PARAMEDIC EMERGENCY MEDICINE ASSOCIATE OF SCIENCE CURRICULUM

FIRST YEAR	Course	Title	CL	LAB	CR	
	Fall Semester					
	BIOL 195C	Anatomy and Physiology I	3	2	4	
	ENGL 101C	English Composition	4	0	4	
	PEM 117C	Physical Assessment ¹	2	0	2	
	PEM 142C	Cardiology I ¹	2	0	2	
	PEM 150C	Advanced Trauma ¹	2	0	2	
	PEM 161C	Integration Lab I ¹	0	4	2	
					16	
Spring Semester						
	BIOL 196C	Anatomy and Physiology II	3	2	4	
	MATH 120C	Quantitative Reasoning or higher-level math course	4	0	4	
	PEM 111C	Paramedic Procedures ¹	1	3	2	
	PEM 126C	Pharmacology ¹	3	0	3	
	PEM 135C	Medical Emergencies ¹	2	0	2	
	PEM 162C	Integration Lab II ¹	0	4	2	
	PEM 244C	Advanced Cardiology ¹	2	0	2	
					19	
Summer Semester						
	PEM 190C	Introduction to Clinical Environment ¹	1	0	1	
	PEM 194C	Hospital Clinical ^{1,2}	0	18	5	
	PEM 290C	Field Clinic Primer ³	0	6	2	
					8	
SECOND YEAR	Fall Semester					
	BIOL 222C	Pathophysiology	3	0	3	
	PEM 163C	Integration Lab III	0	4	3	
	PEM 201C	Special Populations	2	0	2	
	PEM 292C	12 Lead EKG Interpretation/Difficult Airway Seminar	2	0	2	
	PEM 296C	Field Clinical I	0	9	3	
	PSYC 105C	Introduction to Psychology	3	0	3	
					15	
Spring Semester						
	ENGL 120C/COMM 120C	Communication	3	0	3	
	PEM 164C	Integration Lab IV	0	4	2	
	PEM 210C	Field Operations	2	0	2	
	PEM 278C	Advanced Paramedic Practice	2	0	2	
	PEM 297C	Field Clinical II	0	7	3
